IT RUSHED HIM.

It has long been a standing newspoon loke, the deliberate and calm, meditative movements of meetinger boys. Their indiff end them, their deliberate patience when hey ought to be in a hurry, and their udled movements all have been sources

THERE IS A CLASS OF PEOPLE of impatience and wrath on the part of the public who employ them. One day last week a party of well known railroad mer were gathered in the front receiving room, of R. E. Torrington, discussing matters GRAIN-O, made of pure grains, that of importance. As they smoked and talk-takes the place of coffee. The most delied and gazed out into the street an official messenger from one of the big companies hurried by in mad haste. Every man pres ent looked each at the other in dismayed surprise. Such an electric thrill in the so tions of one of his species had never beore been heard of. Was some one dead Had there been a horrible tragedy some where in the city? Wasahere a devastat ing fire raging somewhere? These and more were the questions which at once presented themselves to the minds of the wondering group of railroad men who will newsed the unusual spectacle. Finally, Mr R. Delaney, the genial Santa Fe loca agent, volunteered to go out and learn the cause of this strange proceeding. He call ed limitly to the vanishing messenge and called him back. The boy came back very reluctantly, and his face bere th tellis's symptoms of disappointment that he should be stopped in his nurried ca reer. Dell Delaney put the question very pointedly: "What in the world are you What causes this unusual speed?" explanation was at once adequate and entirely acceptable: "I am on my way to

TREATING A TRAMP. One cold morning a tramp appeared at the kitchen door of one of the fine residences of this city and asked for some thing to eat. The servant naked the lady of the house what she should do. The lady said to tell him that breakfast was over and nothing prepared, but if he would exbread and butter he sould be supplied. He wanted bread and antirer, which was diately to ravenously devour his meal. But the lady noticed that his hands from bled as he munched his food. His nervous actions he was over so-appealed to her sympathy, and she invited him into the kitchen and prepared him a good hot meal. After he had finished she said to him: "Now, I have done you a favor, want you to do me one. You are very dirty; your clothes are ragged. I will furnish you with hot water, soup and a towel, and a suit of clothes. I want you to go to the barn and give yourself a good scrubbing, put on the clothes which thank me for it all." The tramp did as

A LEADING PART.

requested and took his departure.

There is a young man in this city who ne time ago wore long hair and studied tractic poses and did other things to con vince himself that he was a coming Booth or Mansfield. He was only waiting to be discovered. One day he was approached by a well known actor from the east, vistiing in the city, and asked if he would take a leading part in a home talent affair which he was going to pull off for some church benefit or other. The young man smiled a patronizing and condescending sort of a graveyard grin, and felt that his time had come; he was being "discover ed." He said he would be glad to help out, and asked what the play was going to be. He was told "Uncle Tom's Cabin." Then he usked what leading part was as signed to him, and his souring feelings took a drop when he was told that it was to lend the donkey down the street in the

NEW FAIR GROUNDS.

The time has come and the occasion is ripe for the securing of new fair grounds. and the executive committee of the State Fair association should hold a meeting and take steps to secure a location. The first thing to be considered should be a location which is nearer town than the The old fair grounds are too far away and are not inviting in any respect, when reached. Property is going up and will which is now at hand can not be last later. Topeka is maneuvering to take the state fair away from Wichita. The manngers of the fair should keep an eye on Topeka and at the same time secure a better location here in Wichita for hold-

## The MAN WOMEN WRITE.

CYICK women write to Dr. Pierce because they want to be cured. They confide in him, trust him, tell him the whole story of their sufferings fully and freely, because women have faith that Dr. Pierce can cure. This confidence is warranted by the fact that more than half a million women have been confidentially treated by Dr. Pierce, and ninety-eight out of every hundred treated, have been perfectly and permanently cured.

WOMEN HAVE CONFIDENCE

In Dr. Pierce's skill. Such confidence is justified by Dr. Pierce's national reputation as a Specialist in the treatment of diseases peculiar to women: irregularities, inflammation, ulceration, female weakness, bearing-down pains, etc. With more than thirty years' experience in the treatment and cure of diseases of women, and with a staff of nearly twenty experienced specialists associated with him, Dr. Pierce offers to women the best medical knowledge and experience in the United States. To this is added what women declare to be "above all price"-the friendly and fatherly counsel afforded by his large experience.

Sick or weak women are invited to consult Dr. Pierce by letter, absolutely without charge. This con-

sultation does away with the disagreeable questions, examinations and local treatments which affront the modesty of women. Every letter is guarded as sacredly confidential, is read in strict privacy and the answer sent in a plain envelope with no printing upon it. Address Dr. R. V. PIERCE, Buffalo, N. Y.

Miss Laura Brooks, of Clinch, Hancock Co., Tenn., writes: "I thank God for such remedies as your 'Favorite Prescription' and 'Golden Medical Discovery,' for myself and friends honestly believe that had it not been for these wonderful medicines I would to-day be in my grave. I am sure that I could not have lived many days in the sure that I could not have lived many days in the condition I was in at the time I first consulted you. I was only praying to die and be free from pain. I was simply a shadow and we had tried almost everything, when, through a friend, I was advised to write to you, which I did, thinking all the while that it was only foolishness to think that such a case as mine could be cured. But I do not think so to-day. After the first week's treatment just as you prescribed. I felt like another woman and I hardly believed that such could be, when the first period was russed without pain. I continued the period was passed without pain. I continued the treatment until I had used about seven bottles of the 'Favorite Prescription' and some of the 'Dis-covery,' and now I am a well woman. I would have given any amount if I had had it, just for the rest it has already given me—rest from pain. I never know when the periods are coming on now, as I am free from pain, and during the time I feel just as well as at any time, and am never confined to my room as I once was. I can eat anything I want and can work at any kind of work-some thing I could never do till this summer. Every body who knows me thinks it wonderful that I am not sick any more. I thank God for this friend of woman, this blessed 'Favorite Prescription.' The very name sounds sweet to me. I am causing many of my friends to use it and all are improving. I can never tell you how I thank you, dear Doctor, for your kind advice and for your kind advice and for your kind advice and for your kind according for your kind advice and for your kind, good, fatherly letters to me."
